

# Lahari Chandana Govada

📅 03/12/1995 📍 Indian 📞 7489336370 ✉ govada.lahari@gmail.com

## PROFILE

Goal-focused UI Developer, skilled in UI prototyping. Well-versed in HTML/CSS, React, NodeJS, Express, MongoDB & Firebase. Finished several projects in search engines and app creation.

Found myself inclined towards programming and development. This developed my skillset in web design languages outside my comfort zone. Alongside this, I also love travelling where I wander and wonder about making creative applications.

## EDUCATION

📍 **TRICHY, INDIA**  
Bachelor of Engineering.

📍 **CHENNAI**  
**GUVI**  
Full Stack Development Course - Conducted by an IIT Madras incubated company.

## PROJECTS

### • Upload files: Drive-to-AWS-S3

Created a drag & drop image uploader with AWS-S3 using technologies such as NodeJS + Express for back end, React for front-end, AWS-S3 for File Storage. Familiar with configuration and access of S3 bucket (cloud storage resource).

## PROJECTS

### • Google-Clone

A search engine made with the knowledge of Redux, React-router, Custom search API. Well-designed using CSS which represents the replica of google search engine.

### • Tic-Tac-Toe Game

Two-player game coded with Typescript & styled by CSS. Been aware of optional static typing and IntelliSense features of typescript.

### • Hanoi Towers Game

Interesting disc game made use of DOM representation & modified with Javascript.

### • Movie Search Engine

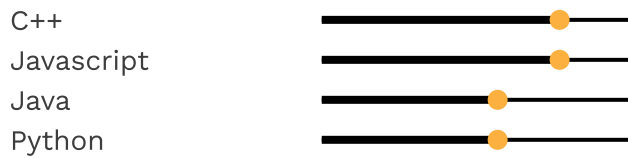

An IMDB similar search engine developed using DOM styled UI and Async functions used to fetch API. Ability to display the fetched JSON data.

**Many more projects in my GitHub profile...**
